(Continued from Ninth Page.)

called yesterday, when Barney Dreyfuss received through the mails a letter which he had written to O'Brien in Arizona a day or two before Tom died. The letter was unopened and was not sent back east until several weeks after its arrival in Arlzona. In the letter President Dreyfuss advised the ball player to remain idle for one sea-son and to call upon him for any assistance he might need that he could offer him-

Comiskey has a hard jobahead—that of selecting fourteen men from nineteen of the American's League's best players. The ex-American's League's best players. The extra five, of course, will have no trouble in getting other places, but it biteth like a buldog to turn loose a player and then have him put up championship ball with the other gang. Young Skopec, the Wheeling pitcher, can hardly hope to get a regular job against Griffith, Patterson, Callahan and Katoll. If he is let out some team will get a cerker. Boston ought to take him get a corker. Boston ought to take him right now, and save further worry. If "Chick", Fraser's story is true, the

Philadelphia club lost a good man through holding him too cheap. Fraser says: "I left the Philadelphia National League club because they held me too cheap. I was disgusted at the treatment I received. I wrote that I could not train in Philadelphia because of the damp cement floor in the club house, which always gave me a bad cold. I wrote Manager Shettsline asking him if he would not pay my expenses if I trained here, and he replied offering me pay on a basis of \$8 per week. That set-tled it. I went to Connie Mack."

Dale Gear, the most popular man who ever wore a Kansas City uniform, is doing light work each day conditioning himself for the coming season. His indoor training is being done at Prof. Fate's gymna-sium on East 9th street, and each morning he takes a long walk. "I regret very much," said Dale the other day, "that I will not be in Kansas City next season, but my offer from Mr. Manning was such that I could not very well refuse. In fact, I believe I am to be paid partly for leaving the town. I am going to Washington as a pitcher, but will be prepared to play
in the outfield if necessary." Gear was
Manning's steadiest twirler last season,
and there is no reason why he should not
be one of the lights of the American
League this season.—Kansas City Star.

The National League club have deter The National League clubs have deter-mined upon reprisal methods. They are trying to make their former players who have signed with the American League jump back at any cost. Who originated the plan nobody seems to know, but it is nevertheless a fact that a wholesale raid on the American League talent is contemplated. The National men say they are pre-pared to outbid their rivals, no matter how high the figures may go; that if the National League contract will not stand in equity the American League will not, either. Therefore it is maintained that the best way to raid the American League is to take away its players, whether they have signed contracts or not. It is known that signed contracts or not. It is known that the National League men have been working secretly on this scheme for several days and that they hope to be able to spring a surprise soon with the announcement that a majority of their old stars have been won back. In short, the magnates do not believe that wholesale contract jumping will influence the public to stay away from the games, but possibly they forget that base ball depends upon its honesty and that players who have no regard for their signed pledges cannot be regarded as strictly hon-orable.—Sporting Life.

Marine Corps Team Want Games. The United States Marine Corps base ball team, stationed at the navy yard, under the management of Lieut. Henry H. Scott, and captained by Walter J. Two Wins for Lester Reiff. At the first day's racing yesterday of the Northampton, England, and Pytchley Hunt spring meeting A. McIntyre, an American jockey, who rode A. Bailey's Ravensden in boring. The race was awarded to King of Pearls, with Lester Reiff up. This is the first complaint that has been made against any of the American Jockeys in England during the present racing season. The race for Earl Spencer's plate of \$2,500, a handicap for three-year-cids and upward, five furlongs, was won by H. J. King's bay filly Esmeralda II, with Lester Reiff in the saddle.

Trotters Burned to Death.

Six trotting horses valued in all at \$10,000 nd owned by Edward Perkins of Poughkeepsie, N. Y., were burned to death in a barn near that city yesterday. The origin of the fire is not known, but incendiarism by tramps is suspected. Three brood mares and four colts were saved. Banquet of Arlington Wheelmen.

Some fifty covers were spread Tuesday evening at the Regent Hotel for the monthly banquet of the Arlington Wheelmen. The evening was an enjoyable one, and after the repast President Mayer called upon various members for remarks and

Captain Moore reported much interest in Sunday road runs, twenty-five members

enstituting last Sunday's party.

Mr. Will C. Bryan, a guest of the evening, made some remarks upon the bicycle track he is building near Lincoln Park. He expressed his intention of making it the best possible track and stated he had letters of assurance that Washington would be visited by the most prominent foreign and American racing men during the com-ing season. He would be glad, he stated, to extend to the Aringtons any courtesy within his power.

President Mayer responded in behalf of the club to the effect that although the Arlington is essentially a road-riding club, yet all its members are interested and enthusiastic in the prospect of Washington having a good race track.

Signor Matteucci, who has been studying Vesuvius for many years, recently made a report on the activity of the voicano. From July, 1895, it kept constantly active for more than four years, the flow of lava ceasing in September, 1899. The depth of the crater was then over 600 feet. Last April the lava rose to within 240 feet of the top, when a series of explosions within the crater began. Some blocks of lava were projected 1,800 feet perpendicularly into the air. One block weighed thirty tons, and Signor Matteucci estimates that it took 610,000 horsepower to eject it. Signor Matteucci, who has been studying

BOYD'S AND VICINITY.

Officers and Directors Chosen-B. and 0. Improvements. Special Correspondence of The Evening Star.

BOYD'S, Md., April 3, 1901. The annual election of directors and officers of Boyd's Hall took place yesterday here. David Rinehart was elected president, Mahlon T. Lewis treasurer and Maurice A. Emerson secretary. The old board of directors was re-elected, consisting of David Rinehart, Mahlon T. Lewis, James L. Higgins, James Boyd Maughlin and

Maurice A. Emerson. A heavy rain followed with high winds passed over this section of the county last night. The rain began to fall early and continued during the night. The streams this morning are out of their banks and raging. The water is higher than it has been for years, all the bottom lands being inundated.

The young people of Dickerson's will give a ball in Boyd Hall here on Easter Monday night. Many invitations have been sent out. An orchestra from Washington will render music for the occasion.

Mr. Edward King of Clarksburg district and Mr. Louis B. Scholl of Barnesville district have been appointed state census enu-

trict have been appointed state census enu-merators for those districts.

The little town of Mount Airy has quite a building boom on hand. A great many new enterprises, it is said, will be started up there soon. The contractors on the railroad improve-

ments of the Baltimore and Ohlo between Monrovia and Mount Airy are having trouble with the laborers as to the rate of pay. Most of them are now on a strike and re-fuse to work for less than \$1.35 per day. They have been getting \$1.25. Most of the workmen in the strike are Italians and Hungarians. The number of men now out is about 450, all of them employed by Douglass Brothers,

contractors for the long tunnel at Mount Airy and for most of the improvements on the Baltimore and Ohio between Baltimore and Frederick Junction. The work will last for several years, as the tunnel being dug and arched near Mount Airy is to be nearly a mile in length. The Baltimore and Ohio will at an early date commence improvements on this branch between Washington and Washington Junction by making a double track over the entire division and ease the grades and curves. Between Brunswick and Cumberland in many places a third and fourth track is now be-ing built to accommodate the heavy rush of freight over that division.

A Potomac Pollution Case.

A special dispatch to the Baltimore Sun from Wheeling, W. Va., says: A case which has been attracting much attention came up in the United States court today. It is the Harper's Ferry Paper Company agt. Joseph E. Thorpp and others on a motion to dissolve the injunction recently granted on the petition of the plaintiffs, who allege that on the process of cleaning certain ores from a bank on the Potomac river the water was so polluted by the defendants that is was unfit for manufacturing or any other purpose. Judge Jackson thought the matter ought to be referred to a commissioner for a full tachnical investia commissioner for a full technical investi-gation, and it went over for thirty days to enable the commission to take evidence and make inspection at Harper's Ferry.

Preparing for Spring Outing.
The next regular monthly meeting of the Business Men's Association, for which notices will shortly be issued by the secretary, will be held Thursday, April 18. Mr. B. H. Warner has accepted the invitation to address the association and will speak of the advantages Washington offers for the establishment of manufacturing indus-

tries.

Elaborate preparations are being made for the spring outing of the association, which will be held some time in May. It is contemplated by the special committee in charge that this outing, or excursion, to some nearby resort of interest, shall take the place of the banquet, which has heretofore been the special social feature of the association's mid-winter life.

#### BEAUTY IS BLOOD DEEP

Pure, Healthy Blood Means Beautiful Complexion.

INTESTINAL MICROBES POISON THE BLOOD WHEN THE BOWELS ARE CONSTIPATED. DRIVE THEM OUT BY MAKING THE LIVER LIVELY.

"Beauty is skin deep." That is wrong. Beauty is blood deep. A person constipated, with a lazy liver, bilious blood, dyspeptic stomach, has pimples and liver spots and a sole leather complexion.

No one with a furred tongue, a had breath, a jaundiced eye, can be beautiful, no matter how perfect are form and features.

To be beautiful, to become beautiful or to remain beautiful, the blood must be kept pure and clean, free from bile, microbes, disease germs and other impurities. Cascarets Candy Cathartic will do it for you quickly, surely, naturally. They never grip nor gripe, but make the liver lively, prevent sour stomach, kill disease germs, tone up the bowels, purify the blood and make all things right, as they should be. Then beauty comes of itself, and to stay.

Buy and try Cascarets today. It's what they do not what we say they do, that will please you. All druggists, 10c., 25c., 50c. or mailed for price. Send for booklet and free sample. Address Sterling Remedy Co., Chicago, Montreal, Canada, or New York. This is the CASCARET tablet. Every tablet of the only genuine Cascarets bears the magic letters "C C C." Look at the tablet before you buy, and beware of frauds, imitations and substitutes.
